Composeal®

The choice for a new standard of controlled, safe tube sealing

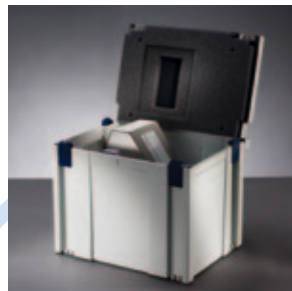

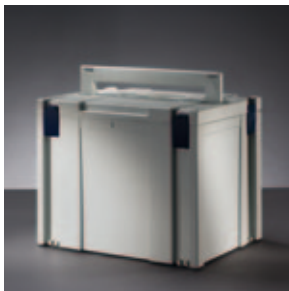

The Composeal® product line offers a sealer range meeting the specific demands of professionals in sealing medical tubing.

- Composeal® **Universal**, heavy-duty and flexible sealing system
- Composeal® **Mobilea**, portable sealer

Composeal® **Universal** – the flexible desktop sealing system with patented auto-tuning function

- Auto-tuning function up to 6 mm tube diameter for optimized sealing time and identical seal thickness
- Designed for heavy duty use
- Spark detection and seal time limiter for controlled handling
- Automatic tubing grips to ensure seal quality
- Indication of sealing progress
- Detachable head is easy to clean
- Additional hand sealer for simultaneous operation

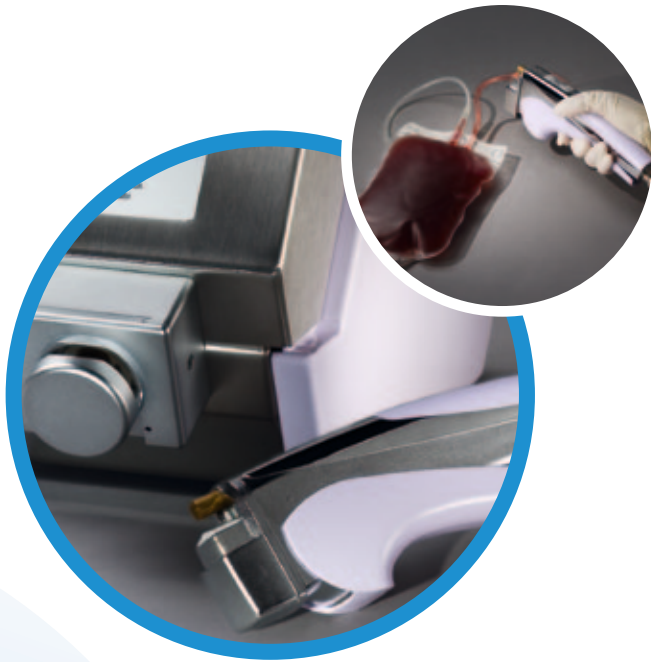

High quality seals, reliable operation, quick and easy handling, process control ensures leakage detection

Composeal® **Universal** Transport Case available on request

Composeal® **Universal**

Dimensions (W × D × H)	150 mm × 280 mm × 260 mm
