CompoGuard®

## COMBINING SAFETY WITH EFFICIENCY IN WHOLE BLOOD DONATION

FRESENIUS KABI

caring for life

The NEW CompoGuard®

MORE donations
MORE flexibility

Increased number of donations per fully charged battery

- New high capacity Lithium battery technology
- Enhanced capability of approximately 70 donations per battery charge for mobile donations
- External charging station available
- Battery easily exchangeable

Increased data management flexibility

- Donation data now able to be downloaded via dedicated Fresenius Kabi USB stick

MORE *benefits*

One further step towards paperless donation

- A new software feature enables the direct donor verification via name, surname and date of birth

Mobile donation system

- Robust transport case for mobile donation

Comfortable working station

- The Gooseneck allows the operation of the CompoGuard® without bending down
- The large in-line tray and the tube clamp enable comfortable loading of the blood bag
- Transport case is also mobile and comfortable table during donation

CompoDock®

CompoGuard®

CompoMat® G5

Bi-directional Interface to blood bank

Fully Automated Data Transmission

- DonationMaster Net is part of the CompoMation Data Management System

Flexible data handling with DECT[2] technology

- Bi-directional data transfer
- Easy and flexible programming
- Reliable data recording, surveillance and documentation

[2] Digital Enhanced Cordless Telecommunications

Even more flexibility with USB assistance

- In addition to DECT and cable transmission, data transfer via USB stick is now possible
- Dedicated Fresenius Kabi USB stick

Trusted features of our CompoGuard® models

Optenna (optical alarm extension) for optimal donation supervision
- The donation event can be monitored from a distance
- The blinking Optenna leads you directly to the correct donor when action is needed

Safety clamp prevents air from entering the collection bag
- The donation line tube is fixed inside the safety clamp
- The tube clamp can only be opened after successful donation and sealing
- The heat sealing is integrated and documented by the CompoGuard®

Donor engagement to improve donation process
- Donors can directly monitor their donation progress

In-line tray for optimal results
- Integrated filter holder to support proper mixing
- Large tray for optimal bag positioning and accurate weighing

Blood Flow Indication
The new CompoGuard® can be programmed to indicate high and low flow events
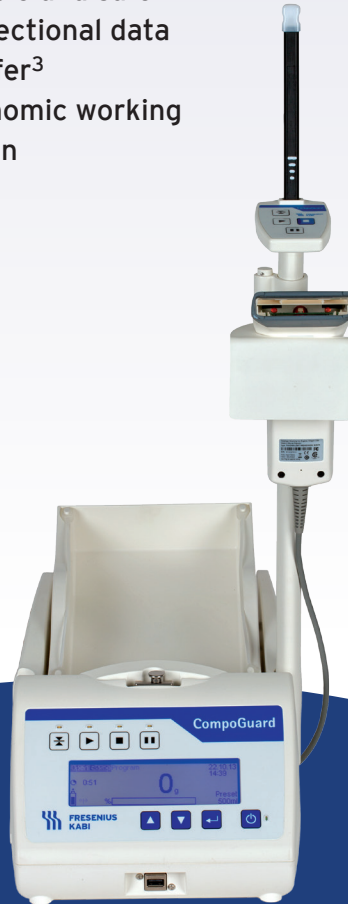

CompoGuard® models
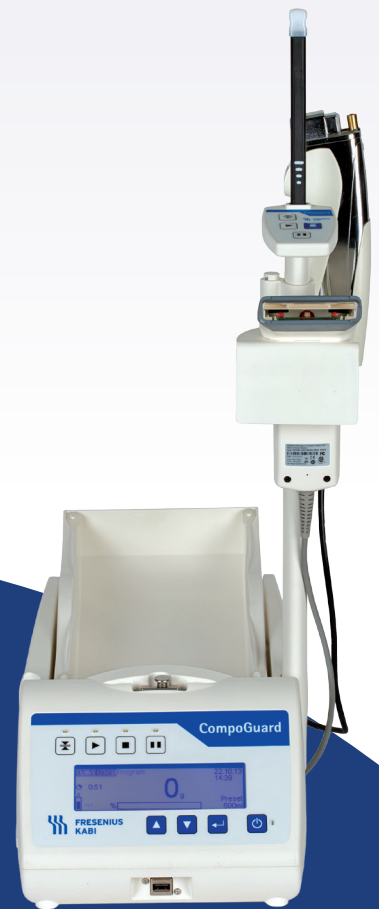

2

CompoGuard® Data
- Reliable and safe bi-directional data transfer[3]
- Ergonomic working station

3

CompoGuard® Complete
Our top model combines
- Reliable and safe bi-directional data transfer[3]
- Ergonomic working station
- Reliable sealing function and documentation

1

CompoGuard® Basic
- Great choice for limited budgets

Ordering information

9029601	**CompoGuard® Basic, 100 – 240 V** Basic model
9029611	**CompoGuard® Data, 100 – 240 V** Basic model + DECT option + Gooseneck + USB port
9029621	**CompoGuard® Complete, 100 – 240 V** Basic model + DECT option + Gooseneck + USB port + sealing option + rechargeable battery

[3] optional cable based data management

COMPOGUARD® MODELS

9029601	**CompoGuard® Basic, 100 – 240 V** Basic model (excl. battery)
9029611	**CompoGuard® Data, 100 – 240 V** Basic model + DECT option + Gooseneck
9029621	**CompoGuard® Complete, 100 – 240 V** Basic model + DECT option + sealing option + rechargeable battery + Gooseneck

DATA MANAGEMENT ACCESSORIES

M638421	**Upgrade Option DECT for model "Basic"**
M690041	**Upgrade Option DECT for model "Basic" (USA/Canada only)**
9028891	**Barcode scanner with integrated auto-sense function**
9028341	**DECT Fixedpart for radio transmission network, EU*** One per PC/network; includes power supply (230 V) and cable
9029001	**DECT Fixedpart clone, EU*** Fixedpart clones all have the same DECT-ID number
9029361	**DECT Fixedpart for radio transmission network, USA/CDN*** One per PC/network; includes power supply (120 V) and cable
9029461	**DECT Fixedpart clone, US A/CDN*** Fixedpart clones all have the same DECT-ID number
M686791	**USB adapter cable for Fixedpart** With this adapter cable the Fixedpart can be connected to a PC with USB port
9029331	**Donationmaster Net 2.5.x.x multilingual**
9028391	**Software licence for CompoGuard® Basic** Key number for activating the data management; not necessary for models "Data" and "Complete"
9028331	**Network converter RS485, EU (necessary for cable network only)*** Includes power supply (230 V) and cable. One converter per PC/network
9028601	**Network converter RS485, USA/CDN (necessary for cable network only)*** Includes power supply (120 V) and cable. One converter per PC/network
M636701	**Y-piece (necessary for cable network only)** Number: one less than number of mixers in a network
M636671	**Network cable, 5 m (necessary for cable network only)** Number: one less than number of mixers in a network
9029541	**USB 2.0 Stick 4GB for CompoGuard®**

ACCESSORIES

9029471	**Transport case for CompoGuard®** Space for all accessories inside the transport case
9029481	**Transport case with charging option** External plug for in-case charging of battery
M684251	**Power adapter with charging indication lamp 100 – 240V, 50 – 60 Hz***
M687051	**Rechargeable battery for CompoGuard®, Li-Ion technology**
9029491	**4-fold charger for CompoGuard®, EU*** For four batteries, 230 V
9029531	**Gooseneck** Includes holder for scanner and hand sealer; included in models "Data" and "Complete"
M657981	**Disinfectable filter holder**
